HDG and Shoulder Pattern Eye Bolts

Eye bolts are threaded bolts with heads that are formed into a ring or eye. This feature allows cables, ropes, chains, or hooks to be attached for securing or pulling. Eye bolts are commonly used in applications for lifting or for hanging objects, or where the support of heavy weight is required.

Eye Bolts To Meet With All Of Your Industrial Needs

Our catalog includes a comprehensive selection of eye bolts, including regular HDG eye bolts and shoulder pattern eye bolts. We offer a wide range of sizes to meet with many different needs. Our eye bolts are also available with hot dipped galvanized (HDG) finishes for added resistance.

Why Source Eye Bolts From BACO Enterprises?

When you source your eye bolts from us, you get access to an ample selection of high quality products that we carefully inspect and test to ensure performance requirements are met. This extends to all of our fasteners, including eye nuts, carriage bolts, and lock nuts. You'll also get competitive pricing, thanks to our longtime relationships with the globe's leading fastener manufacturers. Source the fasteners you need from us to get fast order fulfillment, dedicated customer service, and an assurance of quality in our products

What You Can Expect From BACO Enterprises

We strive to give you the best purchasing experience possible by providing you with exceptional customer service in addition to reliable fastening components. We know you need your items quickly in order to get your job done, and that's why we've made it our job to meet your needs without delay. We can even ship to many areas in the Northeast and Mid-Atlantic in as little as 24 hours, including New York, New Jersey, Connecticut, Pennsylvania, Massachusetts, Rhode Island, Maryland, Delaware, New Hampshire, Maine, Vermont, and Virginia.
